Hi Everyone,

I love to walk. One of my favorite times to walk is predawn. This is especially true in the summer when the heat and humidity can be very high during the day. I took this beautiful picture in the Eastern Market area of Capitol Hill on one of my recent walks.

This gorgeous view got me to thinking about personal finance. I have to ask you a bit of an awkward question. Is your personal financial situation predawn? Has it dawned on you yet that you should be managing your personal finances in a responsible way? Here are some tips for seeing if your financial planning is predawn or not. Are you using the tax

advantaged savings program you might have at work to its fullest? Do you have a plan for paying down your debt? Are you saving a little every paycheck? If you can answer all of these questions in the affirmative than you are probably walking the right path financially and you have seen the sun rise. If not maybe it's time to get with the program. Please contact us if you need some assistance in developing a financial plan. There's nothing we'd like more than helping you see sunrise.

Till Next Time,

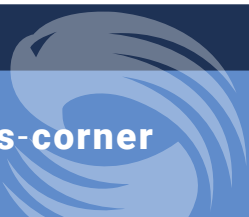

Evan Clark, PRESIDENT AND CEO
